INNOVATIVE TECHNOLOGY
Site View is a sophisticated solution that plays videos (advertiser, newspaper and retailer content). As the video content is playing, the computer captures demographic data related to the viewers, such as age and gender.

DEMOGRAPHIC DETECTION
Using our proprietary dynamic face tracking technology we can see who is in the store and viewing your message so your marketing can be strategically targeted to those demographics.

MONTHLY REPORTS
Receive detailed reports of who actually viewed your spots. Monitor your advertising and choose where you want your messages to be seen or heard.

ADVERTISING FREQUENCY
Take advantage of massive ad frequency. Each network only has 15 advertisers which means your video would play once every 7 minutes.

NUMEROUS RETAILER NETWORKS
Enjoy the benefits of high retailer traffic & audience as well as attractive geographic locations.
