Scope of Verification:

We have performed sufficient tests of the readership study (print, online and net unduplicated) to be satisfied that the study was conducted in accord with Alliance for Audited Media Reader Profile Standards. These standards can be found at <http://www.auditedmedia.com/pdfs/telephonestandards.pdf>. Verification of the Website Usage data included a review of the domains represented to be associated with the member newspaper's website and, for server based measurements, such other tests as deemed appropriate to confirm compliance to AAM Digital Services definitions and standards. This verification does not include AAM participation in the publisher's choice of data provider for website usage statistics nor should it be construed as an endorsement by AAM of the methodology or technologies used by the data providers.

Website Usage Definitions:

Total Unique Browsers: This site employs a cookie-based method for reporting of a Unique. All traffic regardless of the originating location (U.S. or International) is included in this total. Also included in this count may be content from co-branded third party vendors as disclosed in the audit report for this site.

This method of accounting identifies an unduplicated cookie browser that accessed the Internet content of the site during the measurement period reported and does not measure a person. No adjustment or correction to the numbers presented in the Audience Snapshot Website Usage, Total Activity has been made to adjust this number from cookies to people. (i.e. deletion of the cookies from browsers or for users accessing the site from multiple devices or locations.)

Page Impressions/Views: The combination of one or more files presented to a browser as a single document as a result of a single request received by the server. In effect, one request by a valid browser should result in one Page Impression/ View being reported. The counted page impression may not necessarily be in focus or visible in the user's browser.

Cookie: A small piece of information (i.e., program code) that is stored on a browser for the purpose of identifying that browser during audience activity and between visits or sessions. Cookies are typically set to expire. Some cookies are intended to remain on the browser temporarily (for example, during a session) and some are persistent in that they are intended to be retained for longer periods.

Browser: A software program running on an Internet enabled device that can request, load and display documents available on the World Wide Web. In our definition, it is assumed that a "human being" is operating the browser manually and viewing the page.
